

perancangan website racikan komputer

Muhamad Fachri Firdaus 202310010

INSTITUT BISNIS DAN INFORMATIKA KESATUAN

Subjek Penelitian

Subjek yang saya gunakan dalam penelitian ini adalah tujuh orang yang ingin merakit atau membeli komponen komputer sendiri, dari data yang saya dapatkan 5 dari 7 orang mengeluh karena beberapa dari mereka takut jika belanja online barang yang dikirimkan tidak sesuai dan lebih percaya belanja secara langsung, tanpa harus menunggu berhari hari seperti belanja online

Proses Bisnis

- user harus login terlebih dahulu untuk mengakses web
- user dapat melihat komponen komputer
- user dapat melihat store terdekat
- user dapat melihat koleksi racikan komputer

Usecase Main

Mockup

A screenshot of a website homepage titled "RacikPc". The header features a logo with three gears and the text "RacikPc". Below the header, there are "Masuk" and "Daftar" buttons. The main content area has a dark background with a blue-toned image of computer hardware components like a motherboard and RAM sticks. The text "Selamat Datang Di Website Racik PC" is displayed in white.

A screenshot of a login page from the "RacikPc" website. It features a dark overlay with a central input field containing the word "Masuk". Below the input field are two empty input fields. The background is a blue-toned image of computer hardware components.
